Huaxia Chinese School at Great Valley
Community Service Hours

This letter is to recognize the ten individuals from your school that participated in this year's annual Philadelphia Cares Day event. This is an event in which the 6 local GE businesses have been participating in for 14 years now. It is run by the Greater Philadelphia Cares Organization (<http://www.gpcares.com/>) which is a non-profit organization who partners with local business to better the Philadelphia area. This year, on October 16th, we had over 200 volunteers out to Woodrow Wilson Middle School in Northeast Philadelphia for a day of painting, gardening and renovation. We were able to paint the fourth floor music department, two locker rooms, auditorium and numerous offices throughout the school with 2 coats of paint. This was a school that has not been painted since 1974. Also we had volunteers renovate an old garden area by weeding; mulching and planting 130 flowers in addition they built a raised flower garden which will be used for teaching biology. It was a very successful event which was covered by NBC10 that night on the news.

Each student below successful contributed to this great cause and each received 8 hours of community service for their effort. Those students are:

Brian Cao
Brian Huang
Jeffrey Wang
Joy Liu
Julia Liu
Lous Y Li
Michael Yang
Shelley Shen
Wendy Zeng
Winston He

Sincerely,

Christopher W. Crawford
